TWO *New* IVIES

The Finest New Plants of the Year

Few people are acquainted with the years of untiring work of Mr. Sylvan Hahn of Pittsburgh in endeavoring to produce new and improved forms of Ivy that will thrive under conditions in the home. Since introducing the Hahn's Self Branching and Hahn's Miniature Self Branching types a number of years ago Mr. Hahn has devoted years of effort in developing new Ivies that are superior to these two. We have watched this work with great interest, realizing the importance of the Ivy in the decoration of the American home. Now offered for the first time are Sylvanian Beauty and Maple Queen — the finest Ivies ever produced. No illustration or description can even begin to convey the beauty of these two new varieties. Both are so distinctly superior to the varieties being grown today as to make them really beyond comparison. In our estimation, Sylvanian Beauty and Maple Queen are the finest new plants introduced in years and will create sensational interest when offered to the American public. You will want to be the first in your locality to offer these new plants to your trade. See illustrations and descriptions on the following pages.

SYLVANIAN BEAUTY

Plant Patent Number 430. Propagation Rights Reserved.

If ever an Ivy is produced that is more beautiful than Sylvanian Beauty it will be worth its weight in gold. No words can describe the beauty of this plant. Sylvanian Beauty branches profusely thus forming a dense mat of foliage. The older leaves are large and dark green—the younger leaves are lighter in color, forming a very pleasing contrast and appearance. Both Sylvanian Beauty and Maple Queen are practically immune to leaf spot which is a very essential characteristic in the growing of a good Ivy plant. Your customers will marvel at the beauty and vigor of this most outstanding new plant.

MAPLE QUEEN

Plant Patent Number 429. Propagation Rights Reserved.

Maple Queen literally branches at every leaf node forming the most dense and compact plant imaginable. The leaves are of medium size and very closely spaced. A uniform deep green color is carried throughout the entire plant. The leaf veins stand out very prominently. The illustration above does not adequately show the free branching character of this beautiful variety. It is practically immune to leaf spot. Maple Queen will undoubtedly replace all other forms of branching Ivies because of its beauty, freedom from disease and general all around ability to thrive under the trying conditions in the modern home.

VINES

The Leaders for Home Decoration

MERION BEAUTY NEW SELF-BRANCHING IVY

This variety has made a tremendous hit with the trade and buying public. Just the thing for miniature gardens, bowls, etc. Every grower should have this variety. Smaller leaves than Hahn's variety and branches at every joint.

2¼ inch pots, \$1.50 per 12; \$10.00 per 100.

SELF-BRANCHING IVY—(Hahn's Variety)

We consider this new Ivy the best variety yet produced. It is rapidly replacing all other Ivies for indoor growing. The plants are self branching and need only a small pinch now and then in order to make beautiful specimens. By all means, try this outstanding new plant.

2¼ inch pots, \$1.20 per 12; \$8.00 per 100.

NEW HEART LEAVED IVY

A new Ivy that is bound to become very popular when it is better known. Medium sized distinctly heart shaped leaves. Stock is very scarce.

2¼ inch pots, \$1.50 per 12; \$10.00 per 100.

VARIEGATED ENGLISH IVY

A new introduction that is fast becoming popular. Every florist using English Ivy will be handling this new type. It is decidedly worthwhile.

2¼ inch pots, \$1.00 per 12; \$7.00 per 100.

HARDY ENGLISH IVY

Evergreen with dark, glossy, green leaves.

2¼ inch pots, \$0.75 per 12; \$5.00 per 100.

Self-Branching Ivy—Hahn's Variety

PHILODENDRON CORDATUM

Florists have found an unusually large demand for this valuable trailing vine and it can be merchandised with the assurance of giving utmost satisfaction with a minimum of care.

2¼ inch pots, \$1.00 per 12; \$7.00 per 100.

POTHOS AUREUS

This beautiful climbing vine has become deservedly popular because of its adaptability to the unnatural conditions of the average home. It is particularly suitable for sun-parlor decoration and grows equally satisfactorily in any part of the home, even in comparatively dark situations.

2¼ inch pots, \$1.00 per 12; \$7.00 per 100.

VITIS RHOMBIFOLIA (Grape Ivy)

A graceful trailing vine with dark glossy green leaves. An excellent vine for house culture.

2¼ inch pots, \$1.20 per 12; \$8.00 per 100.

PLANTS FOR MINIATURE GARDENS

Succulents and Allied Subjects

The demand for plants suitable for miniature garden work is steadily on the increase. Every florist should offer these unusual plants to his trade—they will pay him handsome returns. Succulents are here to stay because of their wonderful lasting qualities and we have found them to be the best plants for house culture. This list covers a most complete line of plants that are suitable for use either in miniature gardens or as individual pot plants. We call your attention to the special collections which are reasonable in price and include the best selling items.

FERNS

NEPHROLEPIS VARIETIES

Per 12	Per 100	Per 1000
\$1.00	\$6.50	\$60.00

BOSTONIENSIS ("The Boston Fern")—A variety that needs no description. Still the most popular of all varieties.

DWARF BOSTON—The most popular of present day ferns. A dwarf type of the popular Boston variety.

ROOSEVELT—The pinnae are beautifully undulated giving the Roosevelt a pronounced wavy effect seen in no other Fern; as the plant ages this effect becomes quite distinct. Our sales of Roosevelt have exceeded two hundred and fifty thousand plants.

SPARROWII—It has dark green foliage which, with its beautiful crested fronds, makes it a most unique, distinct and desirable fern.

TEDDY JUNIOR (The Fern for Every Household)—The fronds are broad and beautifully tapered from base to tip; they droop just enough to make a shapely, graceful plant, permitting it to finish with a fine full center and perfect symmetrical spread. The pinnae are distinctly undulated, giving the fronds an attractive wavy appearance, which adds materially to their charming decorative effects. "Teddy Junior" will produce about four times more fronds than any other Fern ever introduced, finishing with fifty to sixty fronds in a four-inch pot.

VERONA—A handsome variety somewhat resembling Whitmanii but with finer ostrich plume foliage and with a stiffer midrib which makes the fronds stand up better.

WHITMANII COMPACTA ("The Parlor Fern")—This is a condensed form of the "Ostrich Plume" Fern, with valuable characteristics added which are not evident in the parent—the pinnae subdividing, making miniature fronds which are super-imposed on the main fronds, looking as if two or more were condensed in one. Graceful beyond description.

NEW FERN TREVILLIAN

The most beautiful fern sent out in years. It has proven itself much truer to form than other ferns of this type. It is an improvement on Whitmanii, as hardy and sturdy as the Boston, a faster grower than any other fern and makes a better formed plant.

2¼ inch pots—Per 12, \$1.20; Per 100, \$8.00; Per 1000, \$75.00

MOSS FERN

(*Selaginella Emiliana*.) An upright growing moss with delicate lace-like foliage. Suitable for fern dishes or for tables and house decoration. Per doz., \$0.85; Per 100, \$6.00.

CHOICE HARDY FERNS

\$1.50 per 12; \$10.00 per 100

Suitable positions for Hardy Ferns are to be found in almost every garden. With few exceptions they do best in a shady or semi-shady position and in rich well-drained soil. They must be supplied with water during dry weather. Where the soil is stiff or clayey, incorporate a liberal quantity of leafmold, peat or other loose material to make it friable.

CHRISTMAS FERN (*Aspidium Acrostichoides*) — 15 inches. An evergreen fern, best in shady location. Deep green fronds. Excellent for the rock garden.

OSTRICH FERN (*Onoclea Struthiopteris*)—3½ feet. Very stately, likes partial shade and moisture. A very handsome plant — graceful like a palm.

INTERRUPTED FERN (*Osmunda Claytoniana*)—A large fern growing in a crown 2 to 3 feet high, 8 inches broad, and clothed with rusty wool when young. One of the best.

SPINULOSE WOOD FERN (*Aspidium Spinulosum*)—18 inches. An evergreen fern with handsome and finely dissected fronds. Requires a rich moist location. A splendid fern for rockeries.

FLOWERING BEGONIAS

Price, two and one-quarter inch pots, except where noted, \$1.00 per doz., \$7.50 per 100, \$70.00 per 1000.

ALBA PERFECTA GRANDIFLORA—A pure white-flowering Begonia.

ALBA PICTA—Long, pointed, slender leaves thickly spotted with silvery-white. Foliage small and elegant.

ARGENTEA GUTTATA — It has purple-bronze leaves, oblong in shape, with silvery marking, and a most beautiful Begonia.

CARMEN—Bright rose flowers with bronze foliage.

Per Doz., \$0.85

Per 100, \$5.00

CORALLINE LUCERNE—A strong, vigorous grower of upright habit. These flowers are borne in great clusters from 12 to 18 inches across, almost hiding the plant. The color is a beautiful bright coral-red of a heavy waxen texture.

Per Doz., \$1.20

Per 100, \$8.00

RUBRA—Glossy-green leaves. Flowers scarlet rose. Constantly in color.

BEGONIA JEWEL EVANSIANA

This is a tuberous-rooted, herbaceous, hardy perennial Begonia, losing its tops in the fall. When bedded out, the roots remain in the soil and start new growth in the spring, just as do the Peony and Perennial Phlox. The plants like a rich, porous soil and partial shade and will bloom throughout the summer. Rose pink flowers.

Per Doz., \$0.85

DWARF FLOWERING FLORISTS FUCHSIAS

We are large growers of Fuchsias and we call special attention to the varieties listed below—they are dwarf branching and free flowering.

BLACK PRINCE—The finest single variety. It makes a shapely bush, is robust in growth, free from disease and insects, and is probably the freest in blooming. Blossoms of a beautiful waxy-carmine or pink color.

ERNEST RENAN—Large single flowers on well branched plants. White sepals with reddish blue corolla.

IRWIN'S GIANT PINK—The best Fuchsia yet introduced. Enormous flowers of beautiful salmon-pink.

LORD BYRON — Red sepals, corolla of the richest royal purple.

MADAM VAN DER STRASS — This is the best of the double white-corolla Fuchsias.

SPECIOSA—Well known variety, producing large flowers two inches in length, tubes and sepals of which are blush, the corolla crimson. Some plants of this variety grown in eight or nine-inch pots will produce from 300 to 500 flowers from December to May.

TENOR—Plant of fine form, easy to grow, continually in bloom. Double flowers. Rich red sepals, with violet blue corolla.

TRAILING QUEEN—The best trailing type Fuchsia. Large single flowers in drooping clusters. Color, wine red.

BUDDLEIA ROYAL PURPLE

Buddleia Royal Purple is without question the finest Butterfly Bush introduced to date. Its growth is excellent—producing well formed plants 4 to 5 feet high with broad, leathery dark green foliage. The flower panicles, which are entirely open at one time, are deep purple with an undertone of red, creating the appearance of very rich reddish violet purple. Under artificial light or in bright sunlight the color is strikingly beautiful. As a cut flower Royal Purple is unsurpassed. The general color tone is decidedly darker than in Dubonnet or Ile de France. Plants from 2¼ inch pots (will bloom profusely the first year) \$3.25 per 12, \$25.00 per 100. Retail price \$1.00 each.

OTHER BUDDLEIAS

All from 2¼ inch pots.

HARTWEGI—The best cut flower variety. Lavender blue.

\$1.50 per 12; \$10.00 per 100

CHARMING—The new rose pink Buddleia. Very fine.

\$1.50 per 12; \$10.00 per 100

ILE DE FRANCE—Rich purple color. Very popular.

\$1.20 per 12; \$ 8.00 per 100

ALTEHNIFOLIA—New lilac purple variety. Does not freeze back.

\$1.20 per 12; \$ 8.00 per 100

EARLY WONDER

The Finest Hardy Cut Flower Chrysanthemum

Plant Patent Applied For.

We are indeed proud to introduce the first truly fine hardy cut flower chrysanthemum. Early Wonder is the greatest advance made in hardy 'Mums in years. An arm-load of perfectly shaped flowers of the same good quality as those produced under glass may now be grown out of doors. Early Wonder is in full flower in late September—sufficiently early to give a complete crop of flowers in all sections of the country. On first opening the flowers are dainty Dawn and Baby Pink, blending to Peachblossom Pink, when fully open. The individual flowers average 2 to 3 inches and have remarkable substance.

Early Wonder is very hardy and is extremely easy to grow. It is unusually prolific, the plant being a blaze of flowers for weeks. For cutting and garden display Early Wonder is by far the most outstanding hardy 'Mum produced in years. Sold only by Good & Reese, Inc.

Rooted Cuttings \$3.25 per 12; \$25.00 per 100.

Retail Price \$1.00 each.

Early Hardy Chrysanthemums

These varieties have been selected for hardiness and earliness of flowering. In this latitude all will flower from August until October 10th which is our normal killing frost date. In the northern states we advise a light mulch of straw or leaves on all 'Mums left out of doors in the winter.

Rooted Cuttings

\$4.00 per 100; \$35.00 per 1000.

Plants from 2¼ inch pots

\$0.75 per 12; \$5.50 per 100; \$50.00 per 1000.

ADIRONDA—Small, compact, bronze flowers.

ALADDIN—Early Bronze.

ALICE HOWELL—Orange Bronze.

AMELIA (same as Pink Cushion)—Bright, pink, very free flowering.

CAVALIER—Vermilion red, large single, excellent.

CRIMSON SPLENDOR—Magnificent large crimson.

FRED PEELE—Yellow button.

GOLDEN QUEEN—Large yellow.

GRANNY SCOVILLE—Warm coral bronze, large flowers.

GRENADIER—Bright crimson red.

HARVEST HOME—Beautiful bronze.

INNOCENCE—Pure white changing to soft pink, profuse bloomer.

JEAN TREADWAY—Pink with deep center.

L'ARGENTUILLAIS—Bronze tipped with yellow.

LITTLE BOB—Bronze red, button.

MARIE ANTOINETTE—Deep pink.

MRS. F. H. BERGEN—Pale pink with deep pink center.

MRS. H. HARRISON—Full double creamy pink.

MURILLO—Pink, best of its color.

PHILADELPHIA—Lavender pink.

PINK CUSHION—Bright pink, plant covered with flowers.

VIVID—Large rosy crimson.

WINETKA—Pure white, free flowering.

ASTRID

The New 'Mum of Iron-Clad Hardiness

Astrid is a hybrid of the extremely hard species, *C. Arcticum*, and the first hybrid of this variety to be introduced. The single, daisy-like flowers are 3 inches or more in diameter, and are a lovely shade of shell-pink, warmed with old rose tints, with a bright yellow center. The plants have attractive light green foliage, not bothered by diseases or insects. It is the hardiest hybrid chrysanthemum we know of, having come through the past two severe winters without protection and without damage. After being established for two years, Astrid produces more flowers and makes a larger plant than any other Chrysanthemum.

2¼ inch pots, \$2.00 per 12; \$15.00 per 100

NEW WINTER HARDY HYBRID KOREAN CHRYSANTHEMUMS

These new creations are especially fine for cold climates where the ordinary chrysanthemum winter-kills. They are hardier, most attractive with their lovely new pastel shades, and early flowering. The Korean Hybrids are undoubtedly the greatest advance made in years in chrysanthemums.

Rooted Cuttings, \$4.00 per 100; \$35.00 per 1000.

2¼ inch plants, \$0.75 per 12 \$5.50 per 100.

APOLLO—Superb autumn color—a sparkling combination of bronze, red, and gold suffused with glowing salmon. The single flowers, 2 inches across, are produced in immense sprays. Long flowering period. Height 2½ feet.

CERES—A lovely combination of old-gold, chamois-yellow, and soft coppery bronze. The mature flower petals appear as if dusted with gold. Handsome sturdy plant producing a quantity of nicely formed single flowers in branching sprays. Height, 2½ feet.

DAPHNE—Altogether a new shade of pink to the chrysanthemum. An exquisite blending of Daphne-pink, with an underlying sheen of lilac rose, enhanced with prominent golden stamens in the center. The single flowers, 3½ inches in diameter, carried in graceful sprays, are especially frost-resistant. Fine, healthy-growing habit. Height, 2½ feet.

DIANA—A new color-note for the garden, Chatenay-rose-pink, mingled with lilac rose and soft salmon, the tones of which vary with the degree of light. The triple rays of petals give an appearance of fullness that is none the less dainty. Height, 2½ feet.

HEBE—Remarkably hardy and early, the delightfully fragrant silvery pink blossoms of this variety present a lively color mass in the fall garden. Enthusiastic reports from northern latitudes substantiate all our claims for this fine variety. Height, 2½ feet. Late September.

INDIAN SUMMER—A very hardy variety. Double glowing orange flowers, 3 inches across, somewhat shaggy in make-up. Fine plants, never requiring support of any kind. Height, 2 to 2½ feet.

LOUISE SCHLING—Deep, dazzling red. Very vigorous growth. Height, 3 feet. One of our favorite 'Mums.

MARS—Deep amaranth-red, changing to wine red overlaid with a velvety sheen. A distinct and striking color effect. Height, 2½ feet.

MERCURY — (Plant Patent No. 58) — The 3-inch, single flowers open bronze-red and change to coppery bronze as they mature, a charming effect in the garden. The graceful sprays when cut keep two to three weeks. Height, 2 feet.

ROMANY — The color is between carmine and nopal-red, with bronze tones. It is enhanced by the gold reverse showing on the incurved center petals. The long-lasting flowers will remain in good condition at least three weeks when cut. Height, 2½ feet. In full flower October 5.

VULCAN—Glowing carmine-red, shading to garnet-crimson, changing to an attractive bronze-crimson as the flower matures. Double ray-like petals with a conspicuous golden center. Pleasingly fragrant. Height, 2½ feet. October 5.

THE FAMOUS CUSHION MUMS

The Azalea Flowered Chrysanthemums

No race of new plants has ever created more interest than the Cushion Chrysanthemums. The plants are dwarf and spreading in growth, very hardy, and far more prolific than the older types. Often as many as two thousand flowers are open at one time creating an effect that is really beyond description. We offer four new colors this year in addition to the pink variety which has been on the market for several years.

HARVEST GOLD

New Golden Yellow Cushion Mum

Introduced by Good & Reese 1940

From thousands of Mum seedlings, Harvest Gold was selected as the best cushion type yet produced. It is dwarf in growth, rarely exceeding a height of 12 inches and spreading out to a diameter of three feet when fully developed. Harvest Gold commences to flower in August and continues until killing frost. The flowers are pure golden yellow and produced in such profusion that the plant is a blaze of vivid coloring for many weeks. Harvest Gold is destined to be one of the most popular Mums.

Rooted cuttings, \$2.00 per 12, \$15.00 per 100. 2 1/4 inch plants, \$2.65 per 12, \$20.00 per 100.

BRONZE CUSHION (NEW)

Rich reddish bronze flowers turning to bronze yellow. A plant of this variety creates a sight of sensational beauty.

Rooted cuttings, \$4.00 per 100, \$35.00 per 1000. Plants from 2 1/4 inch pots, \$0.75 per 12, \$5.50 per 100.

WHITE CUSHION (NEW)

Flowers open a very delicate pink, turning to snow white. We have counted 2200 flowers on one plant of this variety. Commences to flower in August.

Rooted cuttings, \$4.00 per 100, \$35.00 per 1000. Plants from 2 1/4 inch pots, \$0.75 per 12, \$5.50 per 100.

RED CUSHION (NEW)

Every flower is brilliant deep red. Red Cushion is not harmed by early frosts, continuing to flower until very late fall.

Rooted cuttings, \$4.00 per 100, \$35.00 per 1000. Plants from 2 1/4 inch pots, \$0.75 per 12, \$5.50 per 100.

PINK CUSHION

We have selected only the best colored plants from our stock of this variety to improve the color. Pink Cushion was the first color in the Cushion Mums to be introduced and it is still the most popular of all varieties.

Rooted cuttings, \$4.00 per 100, \$35.00 per 1000. Plants from 2 1/4 inch pots, \$0.75 per 12, \$5.50 per 100.

LARGE FLOWERING COMMERCIAL 'MUMS

HARDY LILIES

Blooming Size, Healthy Bulbs In All Varieties

AURATUM (Gold-Banded Lily)—The largest of Oriental hardy lilies. Clusters of large white flowers dotted crimson, with a clear golden band running through the center of each petal. July, August.

\$1.75 per 12; \$12.00 per 100

CROCEUM—Beautiful flowers of orange yellow tinged red with small black dots covering the petals.

\$1.75 per 12; \$12.00 per 100

GIGANTEUM (Easter Lily)—Immense flowers of purest white, flowering in June and July. Fragrant.

\$1.50 per 12; \$10.00 per 100

HENRYI—A beautiful lily from China, growing 4 to 8 feet high, and often carrying as many as twenty bright orange yellow flowers in August.

\$1.75 per 12; \$12.00 per 100

PHILIPPINENSE FORMOSANUM (The Wonder Lily)—Large flowers of purest white. 3-4 feet. Fragrant. July-November.

\$1.20 per 12; \$8.00 per 100

REGALE—The flowers are white, shading to yellow in the center, with a pink tinge on the outer edges. Blooms in June and July. America's most popular lily; easy to grow and sure to bloom.

\$1.20 per 12; \$8.00 per 100

TENUIFOLIUM (Coral Lily)—A flashy little lily, great for mass effect and in rockeries. The flowers are tiny 2 inch balls, but so numerous and so intensely scarlet they shame the larger reds. 1-2 feet high. Blooms in June.

\$1.20 per 12; \$8.00 per 100

RUBRUM (Ruby Spotted Lily)—Here is one of the joys of August. Large soft pink flowers with bright ruby spots. Flowers 8 to 9 inches across. Grows 4 feet high.

\$1.75 per 12; \$12.00 per 100

TIGRINUM FLORE PLENO (Double Tiger Lily)—The most desirable double flowered lily. Coppery orange flowers with purple spots. Strong grower. Blooms in July.

\$1.50 per 12; \$10.00 per 100

AMARYLLIS HALLI (Lycoris)—HARDY AMARYLLIS

Produces in early spring attractive green foliage which grows until July when it ripens and disappears. About a month later, as if by magic, the flower stalks spring from the ground to a height of 2 to 3 feet, developing an umbel of large, lily-shaped flowers, 8 to 12 in number, of a delicate lilac-pink shade. The bulb is perfectly hardy.

\$0.65 each, \$6.50 per 12

GYPSOPHILA BRISTOL FAIRY

The Best Double Flowering Baby's Breath

In Bristol Fairy we have a wonderful advance over all other types. The flowers are perfectly double, pure snow white and two to three times the size of *Gypsophila paniculata flore plena*. Bristol Fairy blooms early and continues to throw up flowers from the base bearing the fine sprays from June until killing frost. The dried flowers retain their pearly whiteness throughout the winter so that they can be depended upon to lighten the stiffness and formality of winter bouquets. Both sizes will flower the first year.

Strong Grafted Plants From 3 Inch Pots

\$2.00 per 12; \$15.00 per 100; \$140.00 per 1000

NEW HARDY FUCHSIA

(*Fuchsia Magellanica*)

This most interesting shrub came from the New York Botanical Garden, where it has proven entirely hardy. It is in bloom all summer long until stopped by frost. The ruby-red pendent flowers are produced by the hundreds, flowering just as freely in full sun as in light shade. A most interesting plant for the flower border or rock garden, where it fits in perfectly, blooming all summer. Like all Fuchsias, they are especially adapted for shady locations. We advise protection anywhere north of Philadelphia

\$1.50 per 12; \$10.00 per 100

NEW CARNATION IMPROVED CRIMSON KING

The Finest Hardy Everblooming Carnation Yet Introduced

The Truest Hardy Outdoor Carnation. A beautiful strain of hardy pink, which resembles most of all the indoor Carnation, blooming in great abundance all summer, flowers full double and of brilliant crimson color. Excellent for cutting, very hardy and extremely fragrant.

This new introduction is, we believe, of great value to the trade not only as a cut-flower but as well for garden show and particularly in connection with rock garden planting. Rock Gardens are of great interest today and here is a plant that will surely please your clients. Both sizes we offer will bloom profusely the first year.

ARTEMISIA SILVER KING		
A Plant of Rare Beauty for Landscape or Cutting		
For landscape effect from early summer until late winter, Artemisia Silver King is a most outstanding plant.		
For the cut flower trade the foliage of Artemisia Silver King is one of the greatest values as a filler for sprays or designs. It matures early in the summer and quickly hardens to a state when it can be cut and used without moisture. The foliage does not wilt or shatter after hardening off and can be carried dry indefinitely without losing its color.

DOUBLE RUSSIAN VIOLET

This rare Violet has practically been out of commerce for the past ten years. It is very much sought after by those who know it and want it for the exquisite fragrance of its double flowers. It is slow of growth, does not spread much, and it has taken us a goodly number of years to produce a quantity of this fine Violet. Nothing sweeter could be grown in your garden. Excellent for that difficult shady place.

2½ inch pots, \$1.75 per 12, \$12.00 per 100.

ROSA ROULETTI

THE MINIATURE ROCK GARDEN ROSE

For many years this beautiful little rose was lost to cultivation. Several years ago a plant was found growing in an Alpine window-garden by M. Correvo, the famous Swiss Horticulturist. It is rapidly attaining popularity as a rock garden plant and as an edging subject. The plant grows about six to seven inches tall and blooms from early summer until heavy frost. The tiny rose-pink, quite double flowers are less than an inch in diameter.

2¼ inch pots, \$1.20 per 12, \$ 8.00 per 100.

4 inch pots, 3.25 per 12, 25.00 per 100.

BLEEDING HEARTS

DICENTRA SPECTABILIS

How many times have you ordered Bleeding Hearts during the winter and early spring only to receive the usual reply, "Sorry, sold out!" Why not grow your own! We offer you a good quality of A No. 1 quality plants from 2¼ inch pots.

\$1.10 per 12; \$7.50 per 100; \$70.00 per 1000.

TWO NEW SHRUBS

KOLKWTZIA AMABILIS

THE BEAUTY BUSH

One of the newest, rarest and most beautiful of new Shrubs introduced by the Arnold Arboretum. Closely allied to the Abelia—perfectly hardy. Ultimately reaches 6 feet in height and 5 feet through, and produces its Abelia-like flowers in great profusion.

2¼ inch pots, \$5.00 per hundred; \$45.00 per thousand.

NEW RED-LEAVED JAPANESE BARBERRY

We are preparing a large stock of this popular new Shrub for Fall and Spring shipment, and anticipate a supply of fifty thousand excellent plants from 2¼-inch pots. Grown from Cuttings—100% true to type. Immeasurably Superior to Seedlings.

2¼ inch pots, \$5.00 per hundred; \$45.00 per thousand.

Outstanding Ground Covers

EUONYMOUS RADICANS COLORATA

Being entirely evergreen, this plant is very attractive at all seasons. In winter, the foliage turns to a bronze red. This Euonymous is a very rapid grower, rooting at every joint, and this gives a uniform, even effect.

2¼ inch pots, \$1.50 per 12; \$10.00 per 100; \$85.00 per 1000.

PACHYSANDRA TERMINALS

We are now growing this popular and useful plant in large quantities. Well branched plants.

2¼ inch pots, \$1.00 per 12; \$7.00 per 100; \$65.00 per 1000.

VINCA MINOR (Grave Myrtle)

PROBABLY THE BEST KNOWN GROUND COVER PLANT.
